

CLOTHES and the MAKING of the MAN.

The man who said "Clothes don't make the man" was a self sufficient fellow who was already "made." You and we know that correct clothes solidify one's self respect and that other people's estimate of us is based first on our personal appearance and afterward largely on our own valuation. Here is a man who is "overdressed" and you immediately pigeon-hole him as a "lightweight;" there is a man who is carelessly dressed and somewhat "frayed" and you unconsciously regard him as beneath serious notice. The man who KNOWS HOW to dress is the man with mental poise and proper self esteem—the man who invariably commands respectful attention. It's a business and social asset.

Parker-Bridget clothes, by clothing a man faultlessly, add materially in clothing him in his right mind—a mind easy in the knowledge that he is garbed as one of the elect.

THE COLLEGE MAN who knows how to dress "sets the pace" in the matter of correct apparel for young men, and Parker-Bridget has always maintained the unsailable position as THE outfitters for THAT type of college man.

We are making a special showing of the newest things in fall apparel for young men—Suits in all the approved fabrics and colorings, at **\$15.00**. Of course, we have a wide range from which to choose, from \$12.00 to \$20.00.

NO PROOF OF PEONAGE.

Department Through With McKees Books Investigation.

The legal authorities of Pennsylvania and not those of the federal government will have to take whatever action is taken regarding the recent strikes at the works of the Pressed Steel Car Company at McKees Rocks, Pa. The matter was given careful consideration at the Department of Justice yesterday by Acting Attorney General Ellis and Assistant Attorney General Russell, who received reports from United States Attorney Jordan of Pittsburgh and Special Agent Hoagland, who have been conducting an investigation for the department.

While Mr. Jordan and Mr. Hoagland report several cases of violence against the strikers by employees of the company in their efforts to break the strike, nothing was discovered which indicated that the company had violated the peonage or immigration laws. Mr. Ellis and Mr. Russell, after going over the matter thoroughly with the two investigators, decided that there was no ground upon which the department could interfere. This means that so far as the Department of Justice is concerned the case will be dropped. The Pennsylvania authorities are still investigating it, however, and may take action.

In the meantime reports from the scene of the strike are to the effect that the differences between the employers and the striking workmen have been settled and that by tomorrow the entire force will be back at work.
